The SI Summer Academy for Young Professionals (SAYP) is a leadership and training programme developed to strengthen awareness, capacity and resilience in the practice of governance in the Baltic Sea region and countries in the EU Eastern Partnership. The programme aims to support young professionals in their individual capabilities to meet the requirements of a modern governance structure.

What is peer shadowing?

Peer shadowing is a short-term mobility grant for SAYP alumni, which allows for week-long visits at an organisation in another country, in order to closely follow one or several colleagues, observe/study how their workplace/organisation is structured, and functions in practice. Peer shadowing may focus both on routines/practices (how), and on content (what | aims/goals, activities/operations, thematic scopes etc).

Peer shadowing is also expected to include discussions about the observations made, comparisons and suggestions. Eventually, peer shadowing allows for experience-sharing and prospects for mutual learning and changes/improvements at all organisations involved.

What is the offer?

The grant consists of a financial allowance of SEK 5,000 per week for upkeep (food, accommodation, local transport) when visiting the host organisation, for one individual. The peer shadowing visit may last for one or two weeks in duration in total, but cannot be shorter than one work week (5 days). This means that the allowance amounts to either SEK 5,000 or SEK 10,000. In addition, there is also a travel grant included in the offer, according to below:

- Estonia, Latvia, Lithuania – SEK 2,500
- Belarus, Ukraine – SEK 4,000
- Georgia, Moldova – SEK 5,000

Who is eligible to apply?

Former SAYP participants (alumni) from outside of Sweden may apply for peer shadowing at another organisation in Sweden of relevance, while SAYP alumni from Sweden may apply for peer shadowing at an organisation in another country, included in the SAYP programme (see country list below).

Countries

Belarus, Estonia, Georgia, Latvia, Lithuania, Moldova, Sweden, Ukraine.

Host organisation

The applicant is responsible for finding and reaching an agreement with a host organisation, willing to accept him/her for a peer shadowing visit.

As peer shadowing allows for different types of actors/organisations to be considered, applicants are recommended to use a wide scope in the search for organisations that would be relevant and interesting, from the perspective of their

current or future work positions/roles. Here are some examples/types of actors that may act as an inviting host organisation for a SAYP peer shadowing visit:

- Ministries, public agencies, regions, municipalities
- Political parties/organisations
- Universities, research institutes, science parks
- Trade unions/federations/partnerships, associations
- National/local offices of international organisations/bodies
- Other civil society organisations/NGOs

In addition to a description of the environment that the applicant would be involved in, the letter of invitation should also elaborate on the host organisation's expected short and long-term benefits of this commitment.

Conditions

The mobility grant for peer shadowing within SAYP is provided for full-time work weeks only, although the financial allowance may also be used for upkeep during connecting weekends.

The application must be supported both by the home organisation, as well as an inviting host in the partner country.

Any peer shadowing visit should be followed by a report back to SI, according to the instructions provided by SI together with the decision.

Practical arrangements

Successful applicants are responsible for travel arrangements and for finding accommodation in the host country themselves. Using suggestions and advice from the host organisation and fellow SI/SAYP alumni is recommended.

For peers visiting organisations in Sweden, the financial allowance will be transferred upon arrival in Sweden, to what is called a *prepaid card*. Peers visiting other countries than Sweden will receive the allowance directly to their bank account, before departure.

Participants of SAYP peer shadowing are insured against illness and accidents during the peer shadowing visit through the Swedish State Group Insurance and Personal Insurance.

Application procedure

Application for SAYP peer shadowing is done by e-mail. A complete application along with enclosures should be sent to si@si.se, with “SAYP PS 2016/2017” followed by the name of the applicant, in the e-mail title.

The application period is 1 September 2016 – 30 October 2017. SI accepts applications and takes decisions on an ongoing basis throughout the application period. A decision is usually announced at the latest one month after the application has been submitted.

Application enclosures

For an application to be complete, the following documents must be enclosed. Please note that applications to SI that are incomplete will be disregarded.

- [Application form](#), completed and signed
- Letter of invitation (from the inviting host organisation. *Max 2 pages*)
- Letter of support (from the applicant’s home organisation. *Max 1 page*)
- [Peer shadowing agreement](#) (between applicant and host organisation)

The letter of invitation should explain why the host organisation supports the peer shadowing application, and how they expect to benefit from the proposed visit. Furthermore, the document should give a brief summary of the host environment as well as activities that the applicant would be involved in. Also included in the letter of invitation, there should be information regarding an appointed supervisor/contact person, responsible for the visiting peer throughout his/her stay.

The letter of support should provide a testimony from the applicant's home organisation, explaining which benefits they expect to gain from the proposed peer shadowing visit in the short-term as well as long-term perspective.

The peer shadowing agreement acts as formal assurance about expectations and responsibilities both for the visiting peer and the inviting host. The agreement should include a preliminary activity programme as well as a plan for experience-sharing and discussions about possible findings/conclusions.
